ANDROID APPLICATION DEVELOPMENT

CERTIFICATE BY COURSERA

Provided there is the final Assignment that sums up a 2 moths exposure on acknowledge and training with Android architecture and development best practices.

- The assignment consists of deliverables such as using
- Network Provider
- Audio and Video Recording
- Picturing with Camera
- Cascading and Traversing to diverse Interfaces
- Use Content Providers to Register, Store and Retrieve Data
- Filter Registered Data and more.

Nevertheless that training was much more complemented with many others tools for developing with Android. Please check CURRICULUM provided next for further information.
